

# XAVIER EMANUEL AGUIAR MEZA

## PROFESSIONAL PROFILE

Computer Systems Engineering student at Universidad del Valle de México, with practical experience in databases, API testing, Firebase-based applications, web development, and technology-related process documentation.

I have worked on academic and practical projects involving SQL queries, API authentication, Postman testing, Kotlin mobile applications, Firebase Authentication, Realtime Database, HTML, CSS, and workflow analysis. I am interested in backend development, data analysis, software documentation, cloud-based tools, and digital process improvement.
